GreenCut[®] Cutting/Misting Fluid

 LubeCorp Manufacturing Inc.

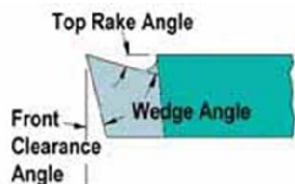

**Environmentally certified industrial fluids
and fluid conditioners**

GreenCut Cutting/Misting Fluid

How-it-Works

GreenCut provides exceptional lubrication, burnishing and cooling of the work piece.

- ◆ Extends tool life by 40%,
- ◆ Provides improved accuracy
- ◆ Superb surface finish
- ◆ Increased production speeds

GreenCut does this by having full access to the seizure zone on the tool rake-face where all the cutting action takes place, **preventing metal-to-metal contact.**

Friction plane heat is drastically reduced by the extraordinary lubrication qualities of the GreenCut Cutting/Misting Fluid.

Blend GreenCut at 20 : 1 ratio

GreenCut Cutting Fluid is effective and non-toxic:

- ◆ Machining
- ◆ Cutting
- ◆ Grinding
- ◆ Drilling
- ◆ Tapping

Machining all metals:

Carbon / Stainless Steel Brass
Inconel Titanium Aluminum

- ◆ Excellent for liquid CNC controlled Plasma Arc Cutting Tables.

Hazardous Material Identification System GREENCUT CUTTING/MISTING FLUID	
HEALTH	0
FLAMMABILITY	0
PHYSICAL HAZARD	0
PERSONAL PROTECTION	A

GreenCut Cutting Fluid is SAFE

GreenCut is totally safe for humans, animals, fish, land, air, and water.

Misting with GreenCut is safe, economic, and very effective.

GreenCut spills are safe to walk on "no-slip".

Totally prevents bacterial growth, both aerobic & anaerobic bacteria. Green Cut eliminates all sump odors.

No sump clean-outs for at least one year. Just add GreenCut and water to balance the mixture to approximately 1 : 20 ratio.
